

REMARKS/ARGUMENTS

Favorable consideration of this application is respectfully requested.

Claims 1-12 remain active in this application, Claims 13-15 having been canceled by the present Amendment.

In the outstanding Office Action Claims 1-12 were allowed and cancellation of Claims 13-15 was required.

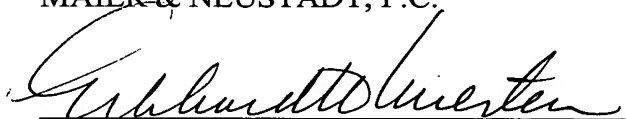

Applicants acknowledge with appreciation the allowance of Claims 1-12, and have cancelled Claims 13-15 without prejudice to expedite issuance of Claims 1-12.

Applicants note that the Examiner's Reason for Allowance noted at page 2, lines 1-3 of the outstanding Office Action erroneously refer to features/ wording not stated in Claim 1, for example. In particular, it appears that the reference to "a ceiling layer---feeling off the---through whole" intended to refer to the recitation in Claim 1 of "a sealing layer---filling up the second through hole." Correction of the Reason for Allowance is therefore believed to be in order and is respectfully requested.

The present application is believed to be in condition for a formal Notice of Allowance, which is hereby respectfully requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
